

An aerial photograph of a rural landscape. The foreground is dominated by a dense forest with trees in shades of brown and orange, suggesting autumn. Beyond the forest, there are rolling green hills and a patchwork of agricultural fields in various shades of green and brown. A small village with several buildings and a church spire is visible in the middle ground. The sky is overcast with grey clouds. The overall scene is a typical German countryside landscape.

# A Quantitative Analysis of Ridge and Wave Soaring in Germany in the off-season: Launch Sites, Frequency, and Performance Metrics.

Tudor Văcărețu / Schwerewelle / Jahrestreffen / 2026 Göttingen

# Motivation

- *Onlinecontest* recently announced it will be shutting down, making this a final opportunity to explore and analyze its data.

SEGELFLUG-PORTAL

## Onlinecontest OLC geht Ende 2025 offline

Mit dem Onlinecontest hat Reiner Rose 1999 ein Portal für den dezentralen Vergleich von Streckensegelflügen geschaffen und so den Wettbewerbsgedanken revolutioniert. Weil sich bisher keine Nachfolge für das Betreibersteam fand, wird der Betrieb des OLC Ende 2025 eingestellt. Letzter Wertungstag ist der 22. September.

[Lars Reinhold](#)

Veröffentlicht am 02.09.2025

The screenshot shows the OLC website interface. At the top, there are navigation tabs for 'Segelflugszene', 'Gleiding', 'Paragliding', and 'ModelGleiding'. Below that, a breadcrumb trail indicates the current page: 'OLC-Wertung' > 'BNC-Wertung' > 'Flugmeldung' > 'Tageswertung' > 'Regel' > 'Tabelle' > 'FlightFishes'. The main heading is 'Tageswertung OLC-Plus 2025 (Weltweit / 02.09.2025)'. A table of results is displayed with columns for 'Punkte', 'Name', 'km', 'ft-km', 'distance-km', 'km/h', and 'Startplatz'. The table lists various pilots and their scores. To the right of the table, there is a map of North America with a glider icon and some text about the OLC's history and future. The bottom of the page features a footer with logos for 'BURKIN', 'TOPMETER', and 'LIEBERT', along with the text 'Foto: Fotos: Brian Jackson / Fotolia, Bernd Web'.

### Continuation of the OLC

Friday, 19. September 2025

 On September 23, 2025, the OLC will continue as planned with all its usual functions. After difficult legal research, it was finally clarified in mid-September that the OLC can continue. From the current perspective, nothing will change in the usual OLC.

Yours, Reiner Rose

This post has been optimized for mobile devices. [more ...](#)

---

### Fortsetzung des OLC

Wednesday, 17. September 2025

 Am 23.09.2025 wird der OLC mit allen gewohnten Funktionen planmäßig fortgesetzt. Nach schwierigen rechtlichen Recherchen wurde Mitte September abschließend geklärt, dass eine Fortsetzung des OLC möglich ist. Aus aktueller Sicht wird sich also am gewohnten OLC nichts ändern.

Euer Reiner Rose

Dieser Beitrag wurde für mobile Endgeräte optimiert. [more ...](#)

# Procedure

- Platforms: Onlinecontest (up to 2023) and Weglide (2023 onwards)
- Browse off-season flights: between **1<sup>st</sup> of October and 28<sup>th</sup>–29<sup>th</sup> of February**
- Consider only flights **over 100 km** (discard if the airtow significantly contributed to the 100 km).
- Include flights starting in Germany **only if significant wave/ridge flying occurred within Germany**
- Exclude all **thermal flights**.

# Why the 100 kilometer rule?

---

- Most glider pilots in Germany or around (Netherlands, Belgium), do not live nearby an airfield that offers ridge and wave flying possibilities during the winter.
- The effort for travelling and preparing for such a day must be worth it.

# Why the 100 kilometer rule?

---

- Maintenance also needs to be done in the winter so the gliding days must be chosen wisely.

# Some thoughts

- I am aware that we will miss some really nice ridge and wave flights which occur during the season.
- I am also aware that we will miss some really interesting ridge and wave flights under 100 kilometres.
- The purpose of this presentation is not to get an exhaustive overview, but rather a big picture, and some details to scroll through on the rainy days.
- Why are ridge flights included as well: because the glider can make use of the lift on the windward (ridge lift) or leeward (wave lift) side of the ridge. See example in the next slide.

# Wave and Ridge flight in the Rheintal
